General Rules

- This tournament is USBC certified.
- All individuals allowed in the bowling center will receive a credential that must always be worn.

Bowling Equipment

- Bowling balls must meet all USBC requirements for surface hardness, weight, balance, size and number of holes. Bowling ball regulations for professional organizations DO NOT apply.
- Only bowling balls listed on the USBC Approved Ball list may be used.
<http://bowl.com/approvedballlist/>
- The following bowling balls are prohibited for use: 900 Global Altered Reality, 900 Global Wolverine, Roto Grip UFO Alert, Storm Electrify Solid, Storm Phaze 4, Storm Trend 2.
- Any bowler concerned with their equipment should have it checked in the pro shop and/or with a tournament official before competition begins.
- Bowling ball surface adjustments by hand are acceptable between games, provided they are done by the athlete only, in the designated area, and the adjustment procedure does not delay the bowler's next turn. Altering the surface of the bowling ball during a game is not allowed. If the surface is adjusted during a game, the penalty is zero pinfall in that game.
- No substance, including, but not limited to, talcum powder and EZ Slide, can be applied to the bottom of a player's shoes.

Dead Ball Situations

- Bowling on the wrong lane constitutes a potential dead ball situation, provided it is protested before the offending competitor (or their opponent in match play) bowls again. If a competitor rolls a strike on the wrong lane, they must re-bowl on the correct lane. If the competitor does not strike, their pin count will stand, and they must shoot the spare on the same lane.
- Bowling out of turn constitutes a potential dead ball situation, provided it is protested before the offending competitor (or their opponent in match play) bowls again. If a

competitor rolls a strike out of turn, they must bowl again in the correct order of play. If the competitor does not strike, their pin count will stand, and they must shoot the spare.

- If a pin is on the lane or in the channel, the deadwood must be removed before the competitor delivers the ball. If a ball is delivered with deadwood on the lane or in the channel, and the ball contacts such deadwood before leaving the lane surface, a dead ball is declared. A competitor must consult the competitors on their pair to determine if it is in play. If any other competitor feels the pin is in play, it must be removed before a shot is thrown. If the competitor attempts a spare conversion while the pin is in play, and the ball contacts the deadwood before leaving the lane surface, they will receive zero for the shot. If a competitor attempts a spare conversion while the pin is in play and any other pin, after contacting the deadwood, knocks down one or more pins, they will receive zero for the shot.
- A competitor must re-bowl the frame if it is determined that any pins were missing from the rack at which they shot.

Dress Code

- All bowlers must wear suitable attire. Name shirts are not required but are suggested for our National Selection Committee. Each athlete must wear a collared shirt during competition.
- Mock neck shirts will be permitted along with athletic-style shirts. Sleeves must be worn. No jeans of any color will be allowed at any time, including practice.
- Dress slacks for men and skirts, skorts, dress shorts or dress slacks for women are acceptable. Skirts, skorts and shorts must be longer than fingertip length when standing with arms down at your sides. Any bowler not in compliance with the dress code will not be allowed to bowl until the issue is resolved. Please check with a tournament official before the start of each block if you have questions regarding your attire.
- All bowlers will be credentialed, which must be worn when not competing and to enter the venue. Dress code is in effect at all times while a competitor is in the venue.

Eating, Drinking, Smoking

- Athletes must not smoke, consume alcohol or be under the influence of alcohol while in competition, i.e., during the entire period of a block of games. In those instances where it is established that a player is in breach of this rule, they may be suspended from the tournament by the tournament director for that block of games.
- Non-alcoholic beverages are allowed, provided they are not consumed in the settee area. Any food or drink must be kept behind the settee during competition.

Format

- All bowling is in on a scratch basis.
- There are separate divisions for men and women.
- Number of bowlers per pair and total squad size shall be based on state and local regulations regarding allowable occupancy. Seating will be reviewed at each venue and based on number of bowlers per pair, and seating may be removed or roped off, so bowlers can maintain social distancing.

- Bowlers will receive 10 minutes of practice prior to the beginning of each qualifying block.
- Competition will consist of five blocks of qualifying, with six games in each block. Each block will be contested on a different Sport-compliant lane condition.
- Participants will receive ranking points based on finish position for each block (Example: bowler finished second in first block, two (2) points earned). Total ranking points will be determined after completion of all five blocks. The lowest number of points will determine first position overall, the next lowest is second, etc.
- All ties will be broken by total pinfall. If bowlers are still tied, and it is critical to break the tie, a one ball roll-off will break the tie. The time and place of the roll-off will be determined by the tournament committee.
- A bowler arriving late will begin play and their score will be counted only from the frame then being bowled. A player not present and ready to bowl when it is their turn will not be credited for any pins for the frames missed.
- No substitutes will be permitted; however, pacers may be scheduled at the sole discretion of the tournament director.

Lane Courtesy

- This tournament will use one-pair courtesy. The pair of lanes to a player's right and left must be empty before a player takes their position on the approach for a delivery. Alternating pairs of lanes across the house should have one player on the approach preparing to make their delivery. A player on each of the other lanes should be at the ball return preparing for their turn as soon as those on the approach make their delivery.
- Players shall be ready to bowl when it is their turn and shall not delay the start of their approach or delivery if the pair of lanes immediately adjacent to them on both the right and left is clear. If a player does not observe the procedure outlined above, it may be construed as slow bowling. A player failing to observe these procedures shall be warned by an authorized tournament official as follows:
 - White card for the first offense (no penalty).
 - Blue card for the second offense (no penalty).
 - Red card for the third and each succeeding offense in any block of games, the game is forfeited.

To enforce this rule, a tournament official will monitor the participants to ensure no pair(s) of lanes get too far behind. Whenever there is any question concerning the enforcement of this rule, or lack thereof, the final decision shall be made by the tournament management committee.

U.S. Amateur Championship Stepladder Finals

A "professional" is defined as anyone who currently holds a professional card (PBA/PWBA), has held one in the preceding calendar year or who has ever won a professional title as a member (national, regional or senior).

- Stepladders will take place on one pair of lanes for the women and one pair of lanes for the men. The pairs of lanes will be chosen by the tournament committee. All stepladder finals matches will have both players bowl one game on the pair of lanes.
- The top seeds (male and female) from qualifying will each choose a lane pattern from the five previous qualifying patterns, and it will be applied to the pair of lanes. The second seeds (male and female), from qualifying also will choose a lane pattern from the five previous qualifying patterns, and it will be applied to the pair of lanes.
- The first stepladder matches will be the third qualifying seed vs. the second qualifying seed on the lane pattern choice of the second qualifier. The final stepladder matches will be the winner of the first stepladder match vs. the top qualifier on the lane pattern choice of the top qualifier.
- In the event of a tie during the stepladder round, all tied competitors will compete in a one-ball roll-off. The highest-seeded competitor shall determine starting lane and position for the roll-off. The competitors shall bowl on the same lane, and then alternate lanes in the same bowling order, until the tie is broken.
- There will be five minutes of practice on the stepladder lanes before each match, with a warmup pair of lanes made available for the top qualifiers during the first stepladder matches.
